

The first official Men's Audio Bible Study was held in Suswa about 1 hour from Narok. There were 14 Maasai men invited and a total of 20 men attended. There were four Pastors from other churches that were in attendance also. The men enjoyed the study and were there for 2 1/2 hours. The study went extremely well.

The Pastor that I am working with has gone through training regarding the Audio Bibles. He tells open ended stories about the Bible and is very good at getting group interaction.

There was an old Maasai man that attended and I told the men that I would be giving them the Bibles for the study but would need them back at the end of the session. I need to use the Bibles at other Bible studies. This old man would not put the Audio Bible down he just kept listening to it and his face lit up and his smile just got bigger and bigger. I didn't have the heart to take his back. So you will see a picture of Pastor Nkomea showing him how the Audio Bible works.

The Pastor and I are coming up with a rule that if you attend 6 studies without missing one, then you will receive one of the Audio Bibles. All the men wanted to take them home. I know from watching the man that he will be listening to his whenever he can.

We will be keeping you updated with some pictures and talking more about this wonderful mission.

We have been working on this for several months with many conflicts but God had the right timing. I know of other ministries using these and they get 3 to 5 men attending the studies. God has sent 20 men and some of these men have asked if they can bring other men with them next month.

Satan tried to have input in the day but was not successful. As I was going out to leave for Suswa, I had a flat tire, I called a friend for help and as it was he was within 5 minutes from the house. We changed the tire and went to get the flat

repaired. I was on my way in 12 minutes. I arrived in Suswa at 11:10 a.m. When I arrived there was music to my ears....the men were singing Maasai songs of praise to God. Satan tried to top us but, it didn't work.

The most interesting thing is that the men attending decided they wanted to meet again. I can't even tell you in words what that means here in Maasai land. Thank you for the Audio Bibles and their use has just begun!

God is good all the time.

Blessings,
Dave and Sue
