

This past week Susan and I traveled to THEOVISION in Nairobi to pick up some more Audio Bibles and met with some of the employees that had traveled to Narok and made the video a few months back.

On the way back to Narok we stopped and delivered some of the Audio Bibles to Pastor Bernard in Ntulele for use in his home groups and bible studies. These are used by both men and women.

The remainder of the Audio Bibles will be delivered in the next few days to local Pastors and churches.

Without your support is could not take place. There is no replacement for hearing the word in your native tongue. Almost all of these Maasai people who receive the bibles would have never thought they would have ever been able to use a bible. Now they are using their bibles daily, some more than once a day. I wish you could see their eyes and there smiles when they turn the audio bible on for the first time, it reminds me of when our children were very young and seeing the presents under the tree Christmas morning.

Thank you for supporting and being part of Gods ministry in Kenya.

God Bless you.  
Dave and Sue

THEOVISION and Pastor Bernard
